GitHub: github.com/anamikaghosh18

Email: anamikaghosh.work@gmail.com
Mobile: +91-9693827534

Skills

Language:	Python, SQL
Frameworks/Libraries:	Scikit-Learn, PyTorch, FastAPI
Databases:	PostgreSQL, MySQL
Tools:	N8N, Automation Anywhere
Soft Skills:	Problem Solving, Collaboration, Adaptability, Quick Learner

Projects

Uncertainty-Aware Skin Lesion Segmentation System GitHub Live	Apr' 26 - May' 26
- Designed and deployed an uncertainty-aware medical image segmentation system using U-Net, TransUNet, and Monte Carlo Dropout for confidence-aware dermoscopic analysis. - Implemented a heuristic Out-of-Distribution safety pipeline leveraging Laplacian variance and HSV-based artifact detection to prevent invalid clinical inference. - Evaluated segmentation quality using Dice Coefficient and Jaccard IoU, while generating uncertainty heatmaps to improve interpretability and clinician confidence. - Tech Stack: FastAPI, PyTorch	
Verifi: Fraud Detection System GitHub Live	Jan' 26 - Feb' 26
- Developed Verifi, a graph-based fraud detection platform that constructs a heterogeneous transaction network by mapping relationships between users, merchants, and devices. - Trained a GraphSAGE model on transaction networks and leveraged NetworkX to visualize complex topologies, to trace real-time threat streams and risk propagation. - Optimized model performance using Focal Loss and GraphSMOTE to address severe class imbalance, achieving 94% ROC-AUC while substantially reducing false negatives. - Tech Stack: FastAPI, PyTorch	

Training

Mentee - Code Without Barriers Program Certificate	Apr' 25 - Jun' 25
- Selected for a 3-month mentorship focused on building software engineering skills and project-based learning under expert guidance. - Collaborated in a team to build VetGuard, an AI-powered application that detects pet diseases from images and provides treatment recommendations. - Developed the image detection model using Python, PyTorch, and deep learning techniques, contributing to model training, validation, and deployment within the application.	

Certifications

Automation Anywhere Essentials Certified Professional Automation Anywhere	Nov' 25
Oracle Cloud Infrastructure Certified Generative AI Professional Oracle	Oct' 25
Oracle Cloud Infrastructure Certified AI Foundations Associate Oracle	Sept' 25

Achievements

Ranked in the Top 100 out of 1000+ participants at the "AI for Bharat" hackathon.	Dec' 25
Awarded 1st Runner-Up among 50+ teams at university-level coding competition "Hack N Hunt".	Mar' 24

Education

Lovely Professional University Bachelor of Technology - Computer Science and Engineering; CGPA: 8.24	Phagwara, Punjab Aug' 23 - Present
Jawahar Navodaya Vidyalaya Intermediate; Percentage: 84%	Sahibganj, Jharkhand Aug' 22 - Mar' 23
Jawahar Navodaya Vidyalaya Matriculation; Percentage: 94.6%	Sahibganj, Jharkhand Apr' 20 - Mar' 21
